To whom it may concern,

11-2-2021

This letter will serve as a confirmation of our position on medical practices, Doctors, and Vaccines for those seeking an exemption from an immunization requirement.

1. Jesus said, it is not the healthy who need a doctor, but the sick. Mark 2:17 Jesus was and is "The great physician". One of the writers of the 4 gospels, Luke was a physician.
2. Doctors and medications are helpful but limited, and not infallible.
3. A personal assessment of whether the benefits of a medical intervention outweigh the undesirable possible side-effects and burdens to that person, including spiritually, and psychologically, must be the sole right of the individual. Not imposed by the state.
4. **Medications and Vaccinations are not morally obligatory in principle and so must be voluntary.**
5. The Bible is our final authority on all matters, and when it is contradicted by local or national policies or laws, we are commanded to obey scripture first. Where the Bible is silent or non-conclusive, the individual Christian believer must weigh the facts and be informed. They must seek the guidance of the Holy Spirit and make a moral conscious decision based on their personal conviction.
6. We believe in the individual and personal "soul competence" for all free will human beings. We will all stand before God and give an account for our life and what we did with it, including our time, talent, and treasure.
7. In spite of any State or National law, God is The one sovereign king of all kings and Lord of all Lords. Our allegiance and obedience is to Him before any earthly governmental rule.

This is not an exhaustive decision-making guide and does not address all legal, medical, and moral considerations. If you should have any questions, please call.

Marshall Billingslea, Pastor - (580)478-3353
